Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the instant claims are drawn to a process for preparing 2,7-dimethylocta-2,4,6-trienedial. The closest prior art of record, i.e., references listed on the attached PTO-1449 and PTO-892 forms, teach such a process; however, the closest prior art fails to teach instant process step c, hydrolysis/elimination of acetal groups of intermediate diacetal-dial, by reacting with an aqueous base, this step being done separate from the acid hydrolysis step. The prior art also fails to suggest the desirability of such a step, which according to the instant disclosure produces a higher yield than prior art methods, and precludes an additional recrystallization step that is taught in many prior art process for making the same compound.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne Eyler can be reached on 571-272-0871. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
